STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BINGAMAN:

S. 1028. A bill to amend the Public Health Service Act to improve the Nation's surveillance and reporting for diseases and conditions, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. BINGAMAN. Mr. President, I am introducing legislation today entitled the Strengthening America's Public Health System Act of 2009.

The ongoing swine flu pandemic makes clear the necessity for a robust public health system in the U.S. This legislation is designed to strengthen epidemiology and laboratory capacity in State and local health departments and, correspondingly, national surveillance and reporting of infectious diseases and other conditions of public health importance.

Currently, many parts of the local-state-federal disease surveillance system are fragmented and paper-based, and have not fully benefited from new

technologies that could improve the completeness and timeliness of reporting. A 2007 survey found that 20 states are manually reporting diagnostic findings, albeit with a web interface, and 16 are completely paper-based. Only 2 State public health laboratories have bidirectional data flow and can both send and receive laboratory messages, the gold standard for disease reporting. The potential for new pathogen discovery, rapid electronic exchange of public health information, national bacterial and viral databases for DNA "fingerprinting" of infectious disease organisms has not been fully realized. My legislation focuses on improving electronic disease surveillance and reporting so that all state and local health departments and public health laboratories can readily and seamlessly receive, monitor, and report infectious diseases and other urgent conditions of public health importance. The bill also authorizes a process for determining a list of nationally notifiable diseases and conditions and, creates a national committee to evaluate best practices in public health surveillance.

The Strengthening America's Public Health System Act calls for the expansion of resources, renewed focus and mission, and new areas of special emphasis for several existing programs within the Centers for Disease Control and Prevention, CDC. These programs support public health capacity to identify and monitor the occurrence of infectious diseases and other conditions of public health importance; detect new and emerging infectious disease threats, including laboratory capacity to detect antimicrobial resistant infections; identify and respond to disease outbreaks; and hire and train necessary professional staff.

The outbreak of swine flu that originated in Mexico highlights the need for cooperation between the U.S. and Mexico in the surveillance, reporting and control of infectious diseases that cross the border. Clear standards, however, have not yet been established for what information should be shared and how the sharing should take place. My legislation tasks the CDC to finalize and adopt the "Guidelines for U.S.-Mexico Coordination on Epidemiological Events of Mutual Interest" so that we have a clear mechanism in place for communication with public health officials in Mexico.

This important legislation has been endorsed by the: American Association of Public Health Veterinarians, American Public Health Association, American Society for Microbiology, Association for Professionals in Infection Control & Epidemiology, Association of Public Health Laboratories, Association of Schools of Public Health, Association of State and Territorial Health Officials, Center for Infectious Disease Research and Policy, Council of State and Territorial Epidemiologists, Infectious Diseases Society of America, National Association of County and City Health Officials, National Alliance of

State and Territorial AIDS Directors, National Association of State Public Health Veterinarians, National Public Health Information Coalition, Society for Healthcare Epidemiology of America, and Trust for America's Health.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1028

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Strengthening America's Public Health System Act".

SEC. 2. PURPOSES.

The purpose of the programs authorized under this Act is to strengthen public health surveillance systems and disease reporting by—

(1) delineating existing grant mechanisms at the Centers for Disease Control and Prevention designed to enhance disease surveillance and reporting by improving and modernizing capacity at the State and local level—

(A) to identify and monitor the occurrence of infectious diseases and other conditions of public health importance;

(B) to detect new and emerging infectious disease threats; and

(C) to identify and respond to disease outbreaks;

(2) expanding eligibility for grantees;

(3) increasing funding to ensure all States and jurisdictions have appropriate surveillance and reporting capacity and can provide comprehensive electronic reporting, including laboratory reporting;

(4) delineating existing applied epidemiology, laboratory science, and informatics fellowship programs designed to reduce documented workforce shortages for these essential public health professionals at the State and local level and increasing funding for these programs;

(5) expanding the Epidemic Intelligence Service;

(6) delineating a refined process for establishing a list of nationally notifiable diseases and conditions;

(7) improving binational surveillance of diseases in the United States and Mexico border region, including developing improved standards and protocols for binational epidemiology, surveillance, laboratory analyses, and control of infectious diseases between the two nations; and

(8) establishing a forum to permit review and identification of best surveillance practices with a particular focus on improving coordination of animal-human disease surveillance.

SEC. 3. STRENGTHENING PUBLIC HEALTH SURVEILLANCE SYSTEMS.

Title XXVIII of the Public Health Service Act (42 U.S.C. 300hh et seq.) is amended by adding at the end the following:

"Subtitle C—Strengthening Public Health Surveillance Systems

"SEC. 2821. EPIDEMIOLOGY-LABORATORY CAPACITY GRANTS.

"(a) IN GENERAL.—Subject to the availability of appropriations, the Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall establish an Epidemiology and Laboratory Capacity Grant Program to award grants to eligible entities to assist public health agencies in improving surveillance for, and response to, infectious diseases and other conditions of public health importance by—
